Baptist Health offering COVID-19 antibody testing at Urgent Care and Urgent Care Express centers

August 21, 2020 – Baptist Health South Florida is offering COVID-19 antibody testing at all Urgent Care and Urgent Care Express locations. All the test entails is a simple blood draw.

As the number of coronavirus cases in Florida continues to rise, more and more people are wondering if they may have had the virus. Antibody testing can confirm past or recent

exposure to COVID-19, which scientists believe may leave one less likely to be re-infected.

“Antibody testing can also help serve as a tool in population health management by giving researchers a more detailed and accurate picture of how, where and to what extent the virus is spreading in our community,” said David Mishkin, M.D., emergency physician at Baptist Hospital. “Having this information is critically important as we enter the next phase of the pandemic.”

No advanced prescription is necessary, and results are provided in under 72 hours. Patients can save their spot online at their nearest location by visiting BaptistHealth.net/UrgentCare.
