IOS HEALTH SYSTEMS

IOS Health Systems (IOS), is the leading innovator of web based electronic medical records and practice management systems. IOS provides physician offices, clinics, hospitals, and other healthcare providers various innovative and easy to use products to improve their practices and deliver care safely, securely, and efficiently to their patients. Medios EHR provides a powerful, yet practical and fully customizable electronic health records system that includes E-Prescribing, Lab Integration, Workflow Management, E&M Coding, Appointment Scheduling, and many other features available 24/7 from any computer, and is HIPAA Compliant. In addition, IOS offers Medios PMS, a robust practice management system that enables claims management, billing, and features customized back

office tools to streamline reimbursement, and Medios Enterprise, which enables automated document generation, patient status coordination, task management, and integrated workflow, among other benefits. Also as a user of IOS, physicians and staff can view stored medical history and patient information from any computer, including recent test results, medications, and allergies since the system is web-based. And more importantly, the information can be securely shared with any other provider to ensure the safe and effective delivery of care from the point of service.
