## **JFK Medical Center's Cardiovascular Rehabilitation Program Certified by Industry Leader**

October 20, 2020 – JFK Medical Center is proud to announce the certification of its cardiovascular rehabilitation program by the American Association of Cardiovascular and Pulmonary Rehabilitation (AACVPR). This certification is recognition of JFK Medical Center's commitment to improving the quality of life of patients by enhancing standards of care.

Cardiovascular rehabilitation programs are designed to help

people with cardiovascular problems (e.g., heart attacks, coronary artery bypass graft surgery) recover faster and live healthier. The program includes exercise, education, counseling and support for patients and their families.

To earn accreditation, JFK Medical Center's cardiovascular rehabilitation program participated in an application process that requires extensive documentation of the program's practices. AACVPR Program Certification is the only peer-review accreditation process designed to review individual programs for adherence to standards and guidelines developed and published by AACVPR and other related professional societies. Each program's application is reviewed by the AACVPR Program Certification Committee, and certification is awarded by the AACVPR Board of Directors.

In 2018, AACVPR moved to an outcomes-based process with performance measurements that represent more meaningful outcomes. Therefore, AACVPR-certified programs are leaders in the cardiovascular and pulmonary rehabilitation field because they offer the most advanced practices available and have proven track records of high quality patient care. AACVPR Program Certification is valid for three years.

####

About JFK Medical Center

Founded over 50 years ago, JFK Medical Center has evolved into a multi-campus medical center, with four locations throughout Palm Beach County. Our main campus in Atlantis is a 558-bed facility known for its comprehensive services, including Cardiovascular Care, General and Orthopedic Surgery, Neurosurgery, Stroke Care, Robotics, Maternity Care, Cancer Care and Emergency Care. JFK Medical Center North Campus is a 245-bed acute care hospital, with an adjoining 88-bed psychiatric unit and a medical professional office building. JFK also has two off-site Emergency Rooms in Palm Beach Gardens and Boynton Beach.

About AACVPR

Founded in 1985, the American Association of Cardiovascular and Pulmonary Rehabilitation is a multidisciplinary

organization dedicated to the mission of reducing morbidity, mortality and disability from cardiovascular and pulmonary disease through education, prevention, rehabilitation, research and disease management. Central to the core mission is improving the quality of life for patients and their families. Learn more about AACVPR at [www.aacvpr.org](http://www.aacvpr.org).
