MEDTEL

Since 2013, Medtel has been connecting surgical offices to their hospitals and providing them with the earliest opportunity to provide the clinical and financial risks of a procedure. As a result, we have helped hospitals and surgeons successfully administer value-based surgical tools to optimize an episode of care. At the time a surgeon determines surgery is needed, Medtel puts all key team members (including vendors, if needed) on the same page at the same time. By closing communication gaps, our intuitive, cloud-based software improves: Cost-savings; Efficiency; Safety; and Compliance. Our customers believe it is Medtel's unique ability to identify challenges before they arise as critical to their success. For more information, email Harold

Mondschein at Harold@medtel.com or call (212) 777-7722. Visit www.medtel.com.

South Florida Hospital News and Healthcare Report's number one goal is top quality healthcare journalism written and edited for the region's most successful, powerful healthcare business executives and professionals.
