West Boca Medical Center Opens New Breast Center at West Boca Diagnostic Imaging

West Boca Medical Center introduces comprehensive breast care services at the all new Breast Center at West Boca Diagnostic Imaging. The focus of the center is to provide one location for all aspects of breast care including prevention, early disease detection, diagnosis and treatment of breast conditions. Care is centered on treatment techniques derived from a high caliber of diagnostic services. Patients can expect the on-site patient navigator, and specially trained staff, to treat and coordinate all aspects of their care with compassion and sensitivity in an upscale setting.

The Breast Center at West Boca Diagnostic Imaging is led by Dr. Cheryl Moss-Mellman, who is a breast specialist. The center is further supported by medical oncologists, pathologists, plastic surgeons, radiation oncologists, radiologists and several surgeons. This team will ensure that the center is offering a complete range of health services. In addition, the center will offer a full complement of educational and research activities including a variety of seminars and \$99 screening mammograms.

South Florida Hospital News and Healthcare Report's number one goal is top quality healthcare journalism written and edited for the region's most successful, powerful healthcare business executives and professionals.
