Please select the type and number of boxes you would like to order. Please refer to the document above, which includes box numbers, to place your order.

(A) The Gravity Fed Naloxone Distribution Cabinet is excellent for indoor locations or outdoor locations that are sheltered from rainfall. The chutes are designed to precisely fit the Narcan box, so you get capacity of 50 kits but no need for floorspace or electricity. Very popular. Dimensions: 17"x26"x8"

(B) Barney Jr. is the smallest of our "Freestanding" Naloxone Kiosks. It holds approximately 50 kits and is protected from rain by a clear Lexan door that lifts upward. Barney Jr. can be bolted down if needed, or you can move it back and forth between indoor and outdoor locations seasonally. Perfect for libraries. Dimensions: 16"x14"x40"

(C) The HRS4 Multiple Compartment kiosks allows you access to 4 different compartments (2 doors, each compartment has a removable divider). This unit holds around 98 kits. It can be used indoors at malls, airports or libraries – or outdoors in encampments or street corners. This unit can be filled with sand to weigh them down, which deters theft, vandalism and wind issues. Comes with label variety pack. Dimensions: 22"x20"x51"

(D) The HRS6 Multiple Compartment kiosks allows you to 6 different compartments (3 doors, each compartment has a removable divider). This unit holds around 112 kits. It can be used indoors at malls, airports or libraries – or outdoors in homeless encampments or street corners. This unit can be bolted down, or it can be filled with sand to weigh them down, which deters theft, vandalism and wind issues. Comes with label variety pack. Dimensions: 22"x16"x58"

(E) (F) (G) (H) The Original Barney Naloxone Stand is very similar to its siblings in its ability to serve indoor or outdoor locations. All Barney versions offer protection from the rain. Only the E, B and D versions can be bolted down. All Barneys can be filled with sand to weigh them down, which deters theft, vandalism and wind issues. Barneys are used at airports, concert venues, street corners, malls – anywhere you want to give away TONS of naloxone. These units hold the following (E) Dimensions: 21"x15"x43" Holds 58 kits, (F) Dimensions: 18"x21"x43" Holds 74+ kits, (G) Dimensions: 21"x18"x43" Holds 70 kits, (H) Dimensions: 18"x21"x46" Holds 130 kits.

(I) Some organizations prefer the traditional newspaper stand made of metal. It is good quality and holds 95 kits but please be mindful, it is heavier and more awkward to move than the plastic versions detailed above. Indoor/outdoor. Dimensions: 19"x16"x30"

0

(J) The Wall-Mounted Naloxone Distribution Cabinet that hold 20 kits, is widely used for indoor locations because it is "low profile" (meaning it only sticks out 4" from the wall, so it can be used in corridors or breezeways where a larger unit might protrude too far into walking space. This cabinet uses our proprietary Velcro loop back panel so you can stick loads of naloxone in the cabinets without any falling out accidentally. This cabinet comes with a purple sign to hang above and an educational poster to hang next to your cabinet. Dimensions: 17"x4"x26"

0

(K) The Wall-Mounted Naloxone Distribution Cabinet that holds 10 kits, is widely used for indoor locations because it is "low profile" (meaning it only sticks out 4" from the wall, so it can be used in corridors or breezeways where a larger unit might protrude too far into walking space. This cabinet uses our proprietary Velcro loop back panel so you can stick loads of naloxone in the cabinet without any falling out accidentally. This cabinet comes with a purple sign to hang above and an educational poster to hang next to your cabinet. Dimensions: 13"x13"x4"

0

(L) The Naloxone “Stacker” is a deeper indoor wall-mounted cabinet that is deeper than J and K, it is another good option for displaying lots of naloxone in indoor locations. This cabinet also come with a purple sign to hang above and an educational poster to hang next to your cabinet. Dimensions:

15"x8"x15"

0

(M) The “Public Access” cabinet is perfect to put in any public indoor location, especially next to other lifesaving supplies like defibrillators. It holds 3-6 boxes of naloxone and features a full-size 8.5" x 11" instruction sheet for people that do not yet know how to administer naloxone. These cabinets also come with a purple sign to hang above and an educational poster to hang next to your cabinet. Dimensions: 13"x13"x4"

0

(N) The Outdoor Naloxone Cabinet can be mounted to a wall or to a post, light pole or telephone pole. We are including the pole mounting kit on State of Florida orders. The standard version holds 6 to 9 boxes of naloxone.

Dimensions: 11"x6.5"x15"

0

(O) The Outdoor Naloxone Cabinet can be mounted to a wall or to a post, light pole or telephone pole. We are including the pole mounting kit on State of Florida orders. The large version holds 24 boxes of naloxone. Dimensions:

13.75"x8"x17.75"
